

Ossur Cold Rush Compact

COST: \$150
IMMEDIATE PICK UP: Yes
COVERED BY INSURANCE: No
CASH PAY ITEM: Yes
USAGE: Universal Pad
REQUIRES ICE AND WATER: Yes
FUNCTION: Cold Therapy

ABOUT: Cold Rush Compact is convenient, quiet and easy-to-use, delivering cold therapy when and where you need it. The single flow setting and easy fill instructions make this motorized device perfect for use in the clinical setting, or home. Indications requiring the application of cold therapy to a joint or limb such as post-surgical, trauma pain, and swelling.

Pulse Cold/Compression

COST: \$300
IMMEDIATE PICK UP: Yes
COVERED BY INSURANCE: No
CASH PAY ITEM: Yes
USAGE: Shoulder, Back, Knee, Ankle, Universal
REQUIRES ICE AND WATER: Yes
FUNCTION: Cold Therapy and Compression

ABOUT: The Pulse is designed to combine the benefits of intermittent compression and cold therapy to enhance lymphatic function, encourage blood flow, and help stimulate tissue repair faster and better. Intermittent compression has been proven to be more effective than static compression because it moves the blood more effectively, helping push the swelling out of the affected area.
